🐙 [GitHub](#)  [Linkedin](#)  [LeetCode](#)

Summary

Full Stack Developer with a strong foundation in analytical thinking and communication, and hands-on experience building scalable web applications using modern JavaScript technologies. Skilled in designing clean backend architectures, developing responsive frontends, and integrating third-party APIs. Possesses a solid understanding of system design fundamentals and the full project lifecycle. Passionate about building production-ready applications with maintainable architecture and performance-focused design.

Skills

Programming Languages:	JavaScript, TypeScript
Frontend:	React.js, Next.js, Tailwind CSS, HTM, CSS
Backend:	Node.js, Express.js, Websockets, REST APIs
Databases:	MongoDB, PostgreSQL
Dev Tools:	Git, GitHub, Postman, VS Code, Figma, Canva
Cloud & DevOps:	AWS (EC2)
Concepts:	Data Structures, Algorithms, Object-Oriented Programming (OOP)

Projects

Vintage Fashion – E-commerce Website

[GitHub](#) | [Live Link](#)

Architecture: Full-stack MERN monolith using MVC pattern for scalable and structured development.

Authentication: JWT-based auth with OTP email verification (Nodemailer) and Google OAuth 2.0.

E-commerce Core: Product CRUD, size/brand filters, coupons/offers, order tracking, and wallet refunds.

Integrations & Real-time: Razorpay (payments), Cloudinary (image storage), and Socket.IO (real-time chat).

Admin Panel: Role-based dashboard for managing users, products, orders, and coupons.

Data & Analytics: Backend pagination, search, filtering, and visual analytics for sales and inventory.

Nest & Nail – Service Marketplace Platform (In Progress)

[GitHub](#) | [Live Link](#)

Architecture & Tech: Built using Node.js, Express, TypeScript, and MongoDB following Clean Architecture and SOLID principles for a scalable and maintainable backend.

Authentication: JWT (Access/Refresh), OTP email verification, password hashing, Google OAuth.

Core Logic: Location-based worker discovery, slot-based scheduling, availability tracking, and booking validation (12-hour rule).

Experience

Costa Coffee India	July 2022 – September 2022
Customer Service Associate TVM, Kerala Jan 2017 – Aug 2018	
• Delivered high-quality customer service, ensuring guest satisfaction and handling orders efficiently in a fast-paced environment. • Regularly interacted with international customers, enhancing communication skills and cultural adaptability. • Managed billing, POS systems, and daily store operations, maintaining service standards and cleanliness. • Collaborated with team members to maintain a smooth workflow and resolve customer concerns effectively	

Education

Brototype	2024 – Present
<i>Web Development – MERN Stack</i>	<i>TVM, Kerala</i>
Post Graduation	September 2022 – March 2024
<i>Master of Arts English Language and Literature</i>	<i>Kerala University, TVM, Kerala</i>
Graduation	2009 – 2014
<i>Bachelor of Arts in English and Communicative English</i>	<i>Kerala University, TVM, Kerala</i>
